This change to policy is incredibly transphobic. The Executive Order that this seeks to be in compliance of is unconstitutional - there should not be discrimination on the basis of gender and this is exactly what this is doing. Please, allow our trans and intersex siblings to have this scrap of dignity and allow them to claim the gender identifier that best aligns with their own chosen identity. Forcing someone to claim the sex that they were given at birth does nothing to protect women - in fact, it just further vilifies and thus endangers trans women. Please do not comply with this baseless EO, thank you.
