Transgender peoples who are citizens of this country have a right to their passport. They also have a right to have all their identifying information actually reflect their identity. If a birth certificate or passport can be updated due to a typo, then there should be absolutely no hindrance to trans people updating their passports. I feel strongly that the claims of the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order do not, in fact, protect anyone but extremists who want to impose their will on this entire country. If we are free and have the freedom of movement, then trans people must have the same exact rights as all citizens. They must not have their passports removed. They must not be forced to have an identifying mark on their passports removed they must not be forced to identify incorrectly.
