There were no comments to the 60 day notice of this change because no 60 day notice was issued. This process is a farce and does not comply with 5 USC Section 553. The referenced form is from 2019 and was for some reason swapped out the legally effective 2022 form.

The proposed changes, which serve no security or accurate identification purpose, are discriminatory. Additionally, the process being used here circumvents law and obscures the nature of the proposed changes.
