As a citizen of the US, I find it appalling that the State Department and Federal Government wish to withhold the rights of citizens to amend their passports and bar them from matching their identities. This is a violation of a person's rights through the Constitution and of their rights as a living, breathing human being. This is government overreach of personal liberty. We should allow all citizens the right to change gender markers without interference to adhere to their personal identity. It is inhuman to treat anyone with this level of disrespect.
