I do not support the proposed changes to the Department of State's passport policy to place restrictions on the sex designation requested by passport applicants.

Why are you spending any time and money on this? How does this lower my grocery prices?

Seriously, you are supposed to be making the government more efficient and you're wasting money trying to create and enforce rules about something very few people who voted for the administration actually care about.

Your mandate is on the economy and immigration and this proposed change is neither.
