Ah yes. A thinly veiled attempt to keep women from leaving the country, shrouded in transphobia. Of course that is what this country is planning.

Leave. People. Alone. Leave them alone! Let them do things that don't hurt you!

We've all figured you out. We know you all want to scrap the Constitution and engage in blatant tyranny because you don't have enough power to make yourselves happy.

So here's me calling you out. Stop. Leave them alone! This is a ridiculous law to pass when we're giving Elon Musk \$8mil a day. We can't afford eggs! Bird flu is spreading!

Do something that actually matters for once.
