Hi,

Given the scientific agreement and court precedent that "biological sex at birth" can be at odds with physical characteristics and that the information of "biological sex at birth" provides no further amount of security when included in the passport, I encourage you to not include this marker on passports. This will be harmful to many Americans without any gain for our security.

This is in violation of the injunction put on State by the U.S. District Court for the District of Colorado in the Zzyym v. Blinken case (formerly Zzyym v. Pompeo, Zzyym v. Tillerson, and Zzyym v. Kerry).

Thank you.
