Transgender people should be able to be issued a New Passport matching their gender identity even if it does not match the gender on their original Birth Certificate. The refusal to accept applications where proof of identity at the State level is accepted puts the Federal Government and the States out of line with each other. It is also morally wrong and vile to trap a population within the United States without the ability to receive legal travel documentation when they have not committed a crime. This EO is unconstitutional and needs to be reversed so that Transgender people can safely seek Passports.
