These proposed rule changes are unconstitutional as well as needlessly cruel. Whether you wish to acknowledge it or not, the trans people in this country are citizens. Your rules and procedures should be of assistance to ALL citizens, period, not exclude a community that has very little power themselves. Your turning a blind eye to the animus behind these rule changes just emboldens and encourages the bullies to bully more people. And you won't be able to say no because you've already said yes. I urge you to reject these immoral and illegal changes.
