The Presidents attempt to not allow Transgender citizens the right to obtain a passport is totally unconstitutional and illegal. No one, agency or individual has the right to maintain that Transgender rights are not human rights. A person's physical sex is sometimes not the sex they were born with. Nature is constantly evolving and each human deserves the right to present in the sex that is most comfortable to them. You or I have no right to force them into anything that limits their lives in any way.
