The personal right and freedom of an individual falls under the scope of gender. The government is over reaching its powers trying to define an individual's experiences, thoughts and feelings. I DO NOT support this. Wanting to change this is petty and white man once again exerting his power over the bodily autonomy of individuals. Science does not support this propose law change. See this link: <https://socgen.ucla.edu/2015/03/01/challenging-gender-identity-biologists-say-gender-expands-across-a-spectrum-rather-than-simply-boy-and-girl/>
