This denial is an illegal act against right of travel. You know good and well all of our documents must match. Denial of due process with provided required legal documentation to support the changes are blatantly against your actual policies and is utterly and completely forced entrapment, preventing any transgender person from leaving and or even possibly returning to the US. As an army veteran, seeing our country stoop this low is disgusting and sickening. You all need to sit down and pray. Pray for forgiveness. This is anti Christian.
