The only reason this form is being changed is to discriminate against trans folks. This administration wants to ignore all scientific studies, as well as common sense, in order to implement the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" order. There is nothing truthful about their understanding of biology, and this order only hurts women by ensuring they remain as a lower class.

There is not even a reason to require gender or sex to be labeled on a passport, just as the United States did not until 1977. But if it is to be there, then it must match other current legal documents, not be forced to match the individual's documents at birth.
