The changes proposed as a result of the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order make no sense and are completely unnecessary. As a woman, no trans woman has ever hurt or threatened me. Men have. The only extreme gender ideology I've ever heard of is the notion that there are only two genders, and they are assigned at birth.

The very notion of two biological genders is also challenged by the existence of intersex people. They very simply do not fit within the proposed system as written.

There really is no need for the State to intervene in an individual's gender marker or presentation. It weakens the utility of passports as identification; if a person's gender marker doesn't match their presentation--that is, THEIR IDENTITY, it is not useful. It inhibits their freedom of speech. It does nothing to keep me, or anyone else, safe.

This is a waste of time and money for the United States. Stop using my taxpayer dollars for this nonsense.
