To Whom it may concern,

As a US citizen I am very concerned about passport changes related to "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government". Not only with this directly negativity effect a lot of women in my life who I care about, I also find it to be a gross misuse of government resources at I critical time in our country. This is not what I would like to see my government doing while there are wars and genocides happening abroad, and rising poverty among other issues domestically. Furthermore, I find this policy eerily reminiscent of direct anti-trans policy enacted by the government of Nazi Germany in the 1930's. As a citizen, I feel it is my duty to push back against something that so closely mirrors such a dark time in human history. I think that my government can be better than this, thank you.
