Attaching this change, along with any policy, to "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" is not only a massive overstep for the federal government but a massively wasteful spending decision for something that has no effect on the safety or well being of the citizens of the United States. Not only will more of our tax dollars be thrown away on unnecessary labor involved with this pathetic excuse for "security" but the potential for it to be misused and misunderstood will eventually lead to so many legal issues that it's not worth it for anything other than a hateful display to willingly show transgender and non-binary Americans that they are believed to be at a lower station than any other citizen. The fact that this is even up for discussion is a farce, and yet another embarrassing misstep in this country's history and only by stopping it here and now will we be able to achieve some of the semblance of decency this country still has.
