I comment on this proposed revision to the US form DS-11 in protest. This revision is designed to be an early step in the erasure and eventual genocide of US citizens. I know my words are harsh but I do not write them lightly. Our great nation is under attack once again not by enemies abroad but domestic. The pattern is clear. Democracy is bleeding. War is coming. I believe that each and every citizen has their own American dream. I dream that it is self evident to everyone that all people are created equal and all people deserve life, liberty and the pursuit of happiness. I dream that no one is denied the opportunity for a peaceful and fulfilling life. I believe that the highest calling of the nation is to provide that opportunity to every person that it possibly can. I believe America is a place where everyone is welcome regardless of their status or their background or their capacity. I believe that America is the tired, the poor, the huddled masses yearning to breathe free. I believe that America has not reached true greatness yet, always a dream unrealized. America is to me a dream of a better future truly free. I ask you to think and talk about what America means to you.

If this attack, on vulnerable Americans, happening right now with this proposed revision doesn't fit into your dream of America as it doesn't fit into mine I call on you, personally right now, to stand up and refuse. Refuse to take rights away from your fellow citizens. Refuse to be complicit in the destruction of your dream.

America is not a place, America is not a set of rules and regulations, America is a people. A people sharing a common dream of a better tomorrow. America is every last person who shares my dream of freedom.

This proposed revision is deeply unAmerican and cannot be allowed to stand. The time to draw the line is right now. Take a stand and protect your fellow Americans.
