I am xx woman and don't feel protected by this. Biological truth is that some people were born neither xx or xy and are not covered by these forms. Also men should need just as much protection as women otherwise you are labeling all men as predators. I don't think all men are predators, just the president and his cabinet. Please protect me from him instead of a persecuted minority.

Please don't waste money printing this form unless it comes out of Musk's pocket. I didn't ask for this.
