Re: executive order mandating sex assigned at birth on passports

Can we please stop aggressively victimizing people that don't fit into a tiny little ignorant box? Let's call it what it is. It is bigotry. Hate. It has nothing to do with protecting anyone other than the people who want to stay in power. Trans folks just want to live their lives. Pursue the happiness that our country supposedly stands for. This distraction causes actual tangible harm. People will die over this. We cannot allow this to stand.
