Hey. I had been planning to get my passport, but now I think it will be impossible. I have a right as an American to be able to get this form of identification without push back or destruction of my submitted ID documents. Please reverse what Republicans (Trump) has executive ordered. Get Elon out of the puppet master position. America right now is an oligarchy and that is not sustainable. We don't need endless "growth" aka lining the pockets of billionaires. We need a feeling of safety and the ability to get the forms of ID needed to travel. I am directly impacted by this and I am in danger from this policy. Please reverse it.
