E.O. 14168, "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government," is a fiction that has no basis in science, but is based on hatred of an already persecuted minority, people who don't fall into "convenient" gender categories. Replacing the term "gender" with "sex" and only allowing "M" (male) or "F" (female) values is wrong and discriminatory. The "gender" field and currently-allowed values should not be changed, as they reflect scientific fact and the realities of life for the individuals targeted with the planned discrimination. Do not make this change.
