The changes recommended by the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order will cause problems at customs and airports. By forcing trans men and women to have the gender of their birth and not their present gender will confuse TSA agents and slow down lines for everyone, not just trans men and women. Everyone hates waiting in long lines needlessly. I'm not going to appeal to decency within this administration, but rather to simple self interest. Anything that gums up the works on air travel is never welcome by the public and should be considered not just in relation to playing to a culture war, but considered regarding the effects it will have on all Americans trying to travel with as little hassle as possible.
