What a waste of time and money to change this form! The United States needs to fix health care, poverty and violent crime instead of worrying about what 4% of the trans people in this country are doing. I am disgusted that my hard-earned tax dollars are going to something that doesn't improve the lives of ANYONE in this country in any way! In fact, it doesn't DEFEND WOMEN at all - it makes it seem like we need some sort of protection from trans people, when we actually need protection from an authoritarian government like the Trump Administration. SHAME ON YOU ALL!
