I am writing to express my disagreement with changes being made to the process of collecting information and requiring passport gender to match sex at birth. If enacted, this will endanger transgender individuals looking to travel whose documents will no longer match their presentation. It will also subject all Americans to invasion of privacy if there is even a suspicion of a person not looking "masculine or feminine enough." This is a waste of taxpayer money and I urge you to do away with these proposed changes. Thank you for your consideration.
