Please do not change the word "gender" to "sex" on the U.S. Passport renewal application. This is clearly discrimination and is a violation of human rights under the United States Constitution. Also, "M" and "F" should not be the only allowable gender markers on any application. Stop targeting trans people! All people should be guaranteed equal rights under the law. By limiting this language on a passport application, rights will be taken away. This is not what the U.S.A. stands for.
