As a person that is assigned female at birth I think that the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" thing is stupid and wrong. Some people who were assigned certain things at birth, no longer look like that and denying them documentation that matches with how they currently present puts them in the way of violence. Not to mention it's discriminatory against intersex people in addition to being discriminatory against trans people. This isn't making anyone "safer" it's just bullying. It has nothing to do with safety & making people only choose M or F is not even a correct understanding of biology. Chromosomes do all types of things. Stop wasting my tax payer money on unnecessary & discriminatory practices.
