I disagree with these changes. We should not waste taxpayer money to update forms in a way that removes people's rights and limits their ability to travel. This is a ridiculous and unnecessary waste of time and money for a hateful and discriminatory aim. It is a specious claim that this somehow "protects" or "defends" me as a cisgender woman -- taking away another law-abiding person's rights does not make me safer and I do not agree with this practice.
