Title of Information Collection: Application for a U.S. Passport.

OMB Control Number: 1405-0004

I'm commenting in protest of this proposed change to the application for a US Passport. Eliminating the recognition of trans and intersex Americans from legal documents such as passports sets a very dangerous legal precedent. And, the "the methodology and assumptions used" are completely invalid, as reducing sex and gender to a genetic binary is scientifically inaccurate.
