Trans folks have always existed and will continue to exist. As a mother, I will raise my children to be loving people instead of hateful ones. Right now, the hateful minority are attacking and trying to erase trans folks and that's not okay. Trans folks are human beings who deserve to feel joy and be loved. We all do. Trans folks aren't coming for our children because they are our children. Do the right thing and love everyone. All of us were once children, we all deserve to be loved for who we are. Allow trans folks and all folks to decide what their gender marker should be on their passport. Choose love.
