The recent executive order that recognizes only two sexes Male/Female is harmful and discriminatory. Those identifying as either Trans or nonbinary pose no more threat than people who identify as either brown-eyed or blue-eyed. Once we begin to deny rights to people based on sex and gender we have entered a slippery slope of discrimination that may soon include race, age and disability

Please uphold the intent of our Constitution that recognizes all our citizens as equal under the law and permit the X marker on passports.
