Changing passport requirements to fulfill the E.O. "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government,"s doesn't make sense. The biggest threat to women's safety is heterosexual men who identify as straight males. So making people declare whether they are male or female isn't a logical part of this E.O. If the E.O. is serious then please address issues of assault, (including pussy grabbing), stalking, murder, sexual assault ad infinitum. And, while we are talking about dangers to women, men in christian leadership positions seem to have a bent towards abusing, raping, molesting women and children. Maybe do something about that.
