Trans people are the gender they say they are!!! A cis woman knows she's a woman. It's the same for trans people. They deserve to be supported, not constantly discriminated against. Saying that prosecution of trans people is "protecting women" is ridiculous and wrong! What about the trans women that are being prosecuted??? It's just thinly veiled bigotry. This will not only make trans people feel worthless, it'll make it so much harder for anyone to recognize them as their true, real gender.
