I am writing to submit my opposition, during this 30-Day Notice period of proposed information collection, to the proposed rule change to the form DS-5504, Passport Renewal Application for Eligible Individuals, to reflect “sex assigned at birth.”

I'm opposed to the irreparable harm this rule change will cause to transgender and intersex people, and kindly and respectfully urge the State Department to please reverse implementing this rule change and instead, perform its role of protecting the safety of its constituents.
