I am strongly opposed to POTUS executive order attempting to mandate discrimination against transgender people across the federal government and government programs. These regressive policy changes are included in

DS-11 new passport application

DS-82 passport renewal

DS-5504 name change or data corrections

This included a directive to the Departments of State and Homeland Security "to require that government-issued identification documents, including passports, visas, and Global Entry cards" reflect their sex "at conception." This does not represent our democracy and the people who have the same rights as the rest of us. Instead it represents tyranny, stripping people of their identity, safety and liberties. This administration should be ashamed of these restrictive laws they want to impose because on their unbridled and untreated homophobia.
