I'm a cisgender white women, the exact person who the executive order "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" proclaims to defend and protect. But these changes from the executive order and to the passport program do not make protect me. They do not make me feel safer. They simply hurt people, some friends and colleagues, making it more difficult for them to do something as simple as travel. Sex has never had an impact on government forms, and it shouldn't start now.
