- These changes are blatantly unconstitutional and unenforceable.
- Trans people have every right to travel and to non-discriminatory identifying documents as I do.
- This change would endanger American citizens traveling abroad.
- Why is this what we're doing when so many other things are more important such as the economy, homeless, etc.
- There is already court precedent on this.
- Get the government off of people's bodies and out of their self-expression.
