The sex/gender section of passports should be removed entirely. Regardless of political or ideological affiliation, there is no administrative situation in which a person's genitals (either as they are now or as they were at birth) are a better identifier than a photo of their face. Furthermore, as a cisgendered woman, I do not believe for a second that any of these proposed laws have anything to do with "protecting" me. I am angered and disgusted at being used as a false justification for the cruel and unnecessary harm perpetrated against others. The self-actualization of other people is no threat to me, and I will not accept the blame for this government attempting to unjustly control and erase people who only want to live their lives in peace and happiness.
