I have many community members and myself who are negatively impacted by the totally unnecessary and burdensome change to the decades long regulation of allowing trans people to change their passport documentation to match their gender presentation in society. This legislation is needlessly cruel towards a marginalized community and is a security risk to transgender citizens, increasing friction and adding unnecessary burden to travellers and security officers when documents do not match the person standing in front of them. The legislation should stay the same as it has been for decades or gender should be removed entirely from state documents.
