Dear sir/madam,

I think,

1 The info about OCCUPATION does not seem to have any relevance to a passport. Of course, I admit that there may be a good and valid reason for it. But seems to be unnecessary. Most people do not understand "occupation". They seem to answer it as their job title (if they are working). This question should be eliminated on DS-11 and DS-82 and others.

2 We should keep the gender marker X. This can be a safety issue for fellow citizens who recognize themselves as such. Many other countries have this marker. I can understand if the law does not permit you to allow it.

3 You should add a question for POWER OF ATTORNEY that allows another person (like secretary, etc.) to pick passport (when it is done at an Agency office).

Thank you for your consideration.
