Title of Information Collection: Application for a U.S. Passport.

OMB Control Number: 1405-0004.

Form Number: DS-11.

Making it harder to get a passport in addition to wasting money to change a single letter on the passports of less than 5% of the entire population is not something I support. Improving the systems around travel instead of blocking them would increase revenue for tourism if people can actually travel without fear.

Enforcing this would also require too much time and energy to be worth the hassle as it would incorrectly flag people who are within their rights to express themselves however they would like. No government should force its constituents into some arbitrary boxes that are outdated and inaccurate.
