I am a California citizen and identify as a member of the LGBTQ community. The changes to this form impact many people in my community and family. These new passport policies make me afraid for the rights and safety of my family members. The policies behind these changes to passports are not only a waste of us taxpayer dollars, they are unconstitutional. They violate intersex, transgender, and nonbinary people's rights. It's time to reverse this new policy to allow all people the freedom to list their gender in their passport in line with their own identity. Allowing transgender and nonbinary identities in passports will not harm anyone else, but if these identities are not allowed to be recognized much harm will come to transgender, intersex and nonbinary US citizens, as well as their communities, families and friends. Thank you for your time.
