I urge you to reject the passport-related executive order/policy change that would deny that trans, intersex, and nonbinary people exist, and deny them equal rights and treatment under the law. Many of my friends have children I personally know who are trans people, and they're great kids. I do not support this type of discrimination in our country. All of us, including transgender people, need accurate and consistent identity documents that reflect who we are. These documents allow us to travel, start new jobs, open bank accounts, and enroll in school. Every citizen deserves a U.S. passport that matches who they are to ensure they can safely travel, obtain employment, interact with law enforcement, and go about their daily lives without fear of harassment, undue scrutiny, and discrimination.

It is a burden on passport applicants to be asked for evidence of biological sex at birth, a waste of government time and resources to require State Department employees to research this information, and it will make it even harder for TSA and border patrol to ensure our safety and verify identification. It is none of the federal government's business to track down these private details about us.

We rely on our federal government to be thoughtful, well-reasoned, and fair to all Americans, yet this new policy provides no thought, reason, or fairness. Instead, it targets a small population of the United States and denies them identification documents they need to safely travel and go about their lives, with no positive benefits to the rest of us. Everyone loses with this ridiculous change in policy. Reject it. Thank you.
