Comments in response to Comments Application for US Passports

Title of Information Collection: Application for a U.S. Passport.

OMB Control Number: 1405-0004.

Form Number: DS-11.

The Executive orders create a burdensome, unnecessary, and purposeful hardship for non-binary people to access passports. There is particularly an administrative hurdle put on the transgender community since not everyone's sex at birth can be verified. In some cases, no documents exists, in other cases there were clerical errors, in other cases documents were corrected 30 years ago, etc.

Therefore, access to passports will be limited to only certain people who are able to provide historical documentation and this will unnecessarily burden the transgender and intersexed community.
