This new requirement is a waste of government resources because it requires extra work for State Dept Employees and BENEFITS NO ONE! Instead IT HARMS MANY!

If trans and intersex people were accepted as normal, as they should be, this new requirement would not matter. BUT... in 2025 are they are being actively targeted by the Trump administration. This requirement puts them in OBVIOUS DANGER FOR JUST TRYING TO BE COMFORTABLE IN THEIR OWN BODIES. There is absolutely no reason to require sex at birth on a passport.
