I urge you to reject this policy change. President Trump issued an executive order attempting to deny that trans and intersex people exist, and denying them equal rights and treatment under the law. I do not support this type of discrimination in my country.

All of us, including transgender people, need accurate and consistent identity documents that reflect who they are. These documents allow transgender people to travel, start new jobs, open bank accounts, vote, and enroll in school.

Every citizen deserves a U.S. passport that matches who they are to ensure they can safely travel, obtain employment, interact with law enforcement, and go about their daily lives without fear of harassment, undue scrutiny, and discrimination.

It is a burden on passport applicants to be asked for evidence of one's biological sex at birth, and a waste of government time and resources to require State Department employees to research this information.

We rely on our federal government to be thoughtful, well-reasoned, and fair to all Americans, yet this new policy provides no thought, reason, or fairness. Instead, it targets a small population of the United States and denies them identification documents they need to safely travel and go about their lives.

State Department, I urge you to reject this policy change – do not take away the rights of trans and intersex citizens to obtain a passport that reflects who they are, a right they had in the United States for over 30 years.
