The Trump Administration has relentlessly attacked transgender people's basic freedoms. Now Trump's State Department is denying accurate passports to trans, intersex, and nonbinary people.

All of us need accurate and consistent identity documents that reflect who we are. Banning accurate IDs and forcing trans people to out themselves whenever they show an ID will only push trans people out of public life and expose us to discrimination and violence.

Everyone deserves accurate passports that match who we are. These attacks on trans, intersex, and nonbinary Americans must be stopped.
