ABOUT

ETAP helps people find and apply to Education and Training Opportunities funded by the U.S. National Science Foundation (NSF). Principal Investigators of NSF Awards can customize NSF's ETAP application to provide Opportunities for applicants to participate in. Every year, more NSF Opportunities are being managed through NSF ETAP. However, ETAP does not include all of NSF Education and Training Opportunities available.

[View reports showing aggregate descriptive statistics for information captured in ETAP.](#)

Please note: Reports are only available at this time for Opportunities linked to Awards.

Need Award participant statistics for writing a renewal proposal? Curious to see how your applicants compared to your participants? ETAP includes reports, which provide descriptive statistics about your participants and how they compare to participants in other opportunities.

Access reports for each of your Opportunities as HTML, PDF, or CSV files.
