

February 1, 2010

Frank Norcross  
U.S. Department of Energy  
Washington, DC

Mr. Norcross,

I am currently administering the \$2,060,800 grant to Pinal County from EECBG funds. I am opposed to the proposed monthly reporting requirements. I agree with the assessment by the City of Anchorage that monthly reporting would be overly burdensome and duplicative. There is little to report on a monthly basis and quarterly reporting provides sufficient information to DOE to monitor progress. Monthly reporting would create a situation where most of my resources would be placed on completing the reports as opposed to working on the project.

I appreciate the opportunity to comment on the proposed requirement. You may contact me at 520 866-7221 if you have additional questions.

Sincerely,

Ernest Feliz  
Pinal County Grants Coordinator  
Florence, AZ

Division of Housing
