PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to petitions filed on October 21, 2024, by the Coalition of Domestic Folder Manufacturers, Hastings, Minnesota, and Naperville, Illinois. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Pertinent information to this proceeding is available at:

Questionnaires: https://usitc.gov/reports/active_import_injury_questionnaires

Other case information: <https://ids.usitc.gov/case/8231/investigation/8699>

Paper file folders covered by this proceeding are file folders consisting primarily of paper, paperboard, pressboard, or other cellulose material, whether coated or uncoated, that has been folded (or creased in preparation to be folded), glued, taped, bound, or otherwise assembled to be suitable for holding documents. The scope includes all such folders, regardless of color, whether or not expanding, whether or not laminated, and with or without tabs, fasteners, closures, hooks, rods, hangers, pockets, gussets, or internal dividers. The term "primarily" as used in the first sentence of this scope means 50 percent or more of the total product weight, exclusive of the weight of fasteners, closures, hooks, rods, hangers, removable tabs, and similar accessories, and exclusive of the weight of packaging.

Subject folders have the following dimensions in their folded and closed position: lengths and widths of at least 8 inches and no greater than 17 inches, regardless of depth.

The scope covers all varieties of folders, including but not limited to manila folders, hanging folders, fastener folders, classification folders, expanding folders, pockets, jackets, and wallets.

Excluded from the scope are:

- mailing envelopes with a flap bearing one or more adhesive strips that can be used permanently to seal the entire length of a side such that, when sealed, the folder is closed on all four sides;
- binders, with two or more rings to hold documents in place, made from paperboard or pressboard encased entirely in plastic;
- binders consisting of a front cover, back cover, and spine, with or without a flap; to be excluded, a mechanism with two or more metal rings must be included on or adjacent to the interior spine;
- non-expanding folders with a depth exceeding 2.5 inches and that are closed or closeable on the top, bottom, and all four sides (e.g., boxes or cartons);
- expanding folders that have: (1) 13 or more pockets; (2) a flap covering the top; (3) a latching mechanism made of plastic and/or metal to close the flap, and (4) an affixed plastic or metal carry handle;
- folders that have an outer surface (other than the gusset, handles, and/or closing mechanisms, if any) that is covered entirely with fabric, leather, and/or faux leather;
- fashion folders, which are defined as folders with all of the following characteristics: (1) plastic lamination covering the entire exterior of the folder; (2) printing, foil stamping, embossing (i.e., raised relief patterns that are recessed on the opposite side), and/or debossing (i.e., recessed relief patterns that are raised on the opposite side), covering the entire exterior surface area of the folder; (3) at least two visible and printed or foil stamped colors (other than the color of the base paper), each of which separately covers no less than 10 percent of the entire exterior surface area; and (4) patterns, pictures, designs, or artwork covering no less than thirty percent of the exterior surface area of the folder;

- portfolios, which are folders having: (1) a width of at least 16 inches when open flat; (2) no tabs or dividers; and (3) one or more pockets that are suitable for holding letter size documents and that cover at least 15 percent of the surface area of the relevant interior side or sides; and
- report covers, which are folders having: (1) no tabs, dividers, or pockets; and (2) one or more fasteners or clips, each of which is permanently affixed to the center fold, to hold papers securely in place.

Paper file folders are currently imported under statistical reporting number 4820.30.0040 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing paper file folders (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue are provided at the end of this questionnaire and are available upon request from Mary Messer (202-205-3193, Mary.Messer@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDS tool." Use of this tool to help your firm complete this questionnaire is optional. Firms opting to use the D-GRIDS tool to populate their data into this questionnaire will need the D-GRIDS specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDS tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDS tool are available within the D-GRIDS tool itself.

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values" –Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption/including for own retail-level sale" – Product consumed internally by your firm or product shipped for sale from your own firm's retail locations or retail-level distribution channels. Such transactions are valued at fair market value of the product that was internally consumed and/or transferred to your firm's own retail locations or retail-level distribution channels.

"Transfers to related firms" –Shipments made to related firms. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" --Finished goods inventory, not raw materials or work in progress.

Definitions--Continued

“Manila folders” – Manila folders are typically made with 11 point paper (card stock) and are typically available in buff or beige, regardless of how many sides of the folder are closed (e.g., including file jackets). For purposes of this questionnaire, please also include manila-style folders that are in colors other than buff or beige in your reporting.

“Hanging folders” –Hanging folders are named as such because they hang from the rails found in some file cabinets, desktop hanging file frames, and other file storage options. These paper file folders include metal rods for hanging. Hanging folders are typically made with 11 point paper (card stock) and are available in a variety of colors.

“Fastener folders” –Fastener folders are intended to hold documents in place using flat prongs and/metal fasteners. These prongs are typically 2 to 2.75 inches wide, with a 1-inch to 2-inch capacity for holding documents. These paper file folders are generally made with 11 point paper (card stock). They are available in a variety of colors and card stocks.

“Expanding folders” –Expanding folders are expandable paper file folders which are closed on three sides. The expansion adjusts in size based upon the contents and capacity, as they feature an accordion-like structure. They are available in a variety of colors. Regardless of their external color, their construction is typically of 11 point paper (card stock) and reinforced with manila-lined fronts, backs, and gussets.

“Classification folders” –Classification folders are generally made with 25 point paper (pressboard stock) and have built-in dividers for document organization. Metal prongs are typically inserted in each section to secure documents. Classification folders may also feature a tear-resistant gusset to allow for expansion. They are available in a wide range of colors.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

- ☐ No ☐ Yes—Please answer parts ii, iii, and iv.
- ii. Please provide an estimate of the total additional cost incurred (as a percentage compared to LDP value) when importing paper file folders rather than purchasing from a U.S. producer or importer. Do NOT include any costs that also would be incurred if your firm purchased the product from a U.S. producer or importer.) _____ percent compared to LDP value.

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.
