Dear Sirs:

Quad Area CAA, Inc. administers WAP ARRA funds in the amount of \$3,600,000 in the 9 parishes that we serve with our Weatherization Program.

It takes us all month to input information to be able to generate a monthly production report as well as the quarterly reports.

There is never enough office staff as compared to the input information that is required to perform the task in a timely manner.

Any assistance in reducing the reporting would be appreciated.

Sincerely,
Wallace Sibley
Executive Director
